

Pharmacy Closures

Red icons indicate closed pharmacies; yellow icons show Keystone pharmacies whose closure would create pharmacy deserts.

While the passage of Act 77 of 2024 (Pharmacy Audit Integrity and Transparency Act) was a crucial step forward, nearly 190 pharmacies have still closed between January 2024 and March 2025—highlighting the urgent need for continued action to protect community pharmacies.

Community Pharmacies continue to grapple with unsustainable reimbursement rates, predatory practices, and operational pressures that threaten their ability to serve communities—especially in underserved and rural areas.

“Pharmacy closures have and will decrease patient and community access to essential services provided by local community pharmacies...”

Pharmacies provide...

- ✓ Immunizations
- ✓ Comprehensive Medication Counseling
- ✓ Chronic Disease Management
- ✓ Point of Care Testing
- ✓ Continuity of Care

Don't let your pharmacy disappear!
